

8 day fishing safari on Impalila Island in Namibia

IMPALILA ISLAND

The island is a water wonderland, located where the Chobe and the mighty Zambezi rivers flow into each other. Close by is one of the wonders of the world, where 4 countries meet, Botswana, Zimbabwe, Zambia and Namibia. Impalila lies on the northeast tip of Namibia, a mere 70km from Victoria Falls

The Lodge also offers big game safaris, but is legendary for its fishing, especially known for its Tiger Fishing safaris. The river systems of the Zambezi, Chobe, Kasai and Kwando together offer more than 60 different fish species, and will exceed the expectation of all ambitious sports fishermen.

KAZA SAFARI LODGE

The lodge lies under a 700 year old Baobab – the same tree where Dr Livingstone once rested – in the Kavango-Zambezi Transfrontier Park, one of the multi border Flora and Fauna protected areas. Eight cosy Chalets, built on stilts amid the lush shores of the river, and offers a superb view of the Mambova rapids and the peaceful Zambezi. All chalets offer a bathroom with shower, cooling fans and private terrace. The lodge is renowned for its kitchen, full bar, and considering the remote location, a well stocked wine cellar.
